

Dear Sunnyvale Homeowner:

Thank you for your recent inquiry in our Housing Loan Program. Enclosed is an application for the City of Sunnyvale's Mobilehome Loan Program.

Please return along with a copy of last year's Federal tax return, three (3) recent paycheck stubs, verification of other regular monthly income as applicable for **every adult family member living in the home**, recent or year end mortgage statement and most recent bank statement. If you have your own business, please include copies of your Federal tax return for the last two (2) years.

**Mobilehome owners should also include proof of home insurance and a copy of the most recent registration (I will need the original certificate of title as well as the original registration card before loan signing).**

If you have any questions or would like to set up an appointment to go over the application you may contact me at (408) 730-7451.

You may mail the application to:

Housing Division  
City of Sunnyvale  
P.O. Box 3707  
Sunnyvale, CA 94088-3707

Or deliver it to:

Housing Division  
Sunnyvale Civic Center  
456 West Olive Avenue

Sincerely,

Katrina L. Ardina  
Housing Loans Specialist

Enclosure(s)

**ADDRESS ALL MAIL TO: P.O. BOX 3707      SUNNYVALE, CALIFORNIA 94088-3707**

# **NOTICE TO APPLICANTS FOR REHABILITATION LOANS**

## **PLEASE READ CAREFULLY**

The purpose of this information is to help acquaint you with our single family rehabilitation program. The maximum you can receive is \$35,000 (\$15,000 for mobile homes) to help repair your home. The money comes from the federally-funded Community Development Block Grant loan.

Some basic facts about our loans:

### **Funded Repairs**

You should apply before you sign any contracts or start any work on your home. All the work that we fund must be done by licensed contractors. Our program staff can help you find contractors. Examples of the type of work usually funded through this program are: plumbing, roofing, heating, structural reinforcement, weatherization, etc.

### **Interest Rate**

The interest rate is dependent on your income level. If you meet the “very low income” guidelines, you may be eligible for a deferred loan. The interest would be 3% for single family homes and 0% for mobile homes. If you are not very low income but still qualify for the program, the loans would be 4% to 5% monthly payment loans.

### **Monthly Payments**

Your payments of principal and interest are dependent on your income level. If you qualify for a deferred loan, you may opt for a monthly payment plan. This can be arranged with the City at anytime during the loan term.

### **No Prepayment Penalty**

You may prepay this loan without penalty at any time during the term of the loan.

### **Loan Term**

The principal balance and all accrued interest must be repaid to the City: (a) within a maximum of fifteen years (10 years for mobilehomes); (b) at the time of sale, conveyance or transfer of ownership of the home; or (c) in the event of default under the loan documents. In case of financial hardship deferred loans may be extended beyond the fifteen year period.

### **Collateral for Loan**

The loan advanced to you will be secured by a lien recorded against your home. The lien against your home will be in the form of a Deed of Trust and will remain until such time as all sums are paid in full.

### **Loan Amount**

The maximum loan amount is \$35,000 (\$15,000 for mobilehomes).

**Property Indebtedness**

The total indebtedness secured by liens against the property (senior to and including this loan) should not be more than 75% of the market value.

**Eligibility Criteria**

You are eligible for a rehabilitation loan if you meet the following requirements:

- You own and occupy your home, which is in a one-to-four unit property (only the unit which you occupy is eligible for rehabilitation);
- You hold title to the home to be rehabilitated and it is your primary residence; and
- Your income does not exceed the lower-income level as established by county and household size. (See attached income guidelines). There are some restrictions on assets - e.g. bank accounts, stocks, rental property, etc. Maximum value of assets (excluding value of owner-occupied home) for homeowners under age 60 is \$100,000 and for homeowners age 60 and over the maximum is \$225,000.

**Properties which are held in trust**

The terms of the trust should specify that the homeowner is allowed to encumber the property. The City will need to see a copy of the trust stating this. If the loan is approved, the loan documents will specify that when the homeowners dies, the loan will become due. The others in the trust will be responsible for paying back the City.

**Subordination**

Once the city loan is recorded the City will not subordinate to any new loans. The only exception is that the City may agree to subordinate where the new loan is a refinance of a loan superior to the City's in which no additional equity is being taken out of the property.

## **MOBILE HOME EMERGENCY REPAIR LOANS ITEMS OF ELIGIBILITY**

The loans offered through the Housing Division of the City of Sunnyvale are designed to help low-to-moderate income mobile home owners to make needed repairs to their homes. Since this is a home loan and not a grant, consideration must be given to other criteria when reviewing a loan application.

Along with the income guidelines, the age of the home, the overall condition of the home, the park in which the mobile home is located and the zoning where the park is located is also considered when determining whether or not a loan application will be approved.

Once the application for a loan has been approved, the loan funds can only be used for specific types of repairs. The following is a description of the work that can be done through the loan program;

### **EXTERIOR WORK:**

#### **Roof Repairs.**

Roofs that are old and in a dilapidated condition can be replaced through the program. Roof insulation can also be included in the roof upgrade whether the old roof was insulated or not. Skylights will not be considered under the loan program.

#### **Deck and Step Repairs:**

Decks that are damaged or unsafe can be repaired. Recarpeting outside decks and steps can be done if the old carpeting is badly worn and could become a tripping hazard, or if the park is requiring that the deck be recarpeted due to a park requirement (park documentation would be required). Low-rise steps and ramps would also be eligible items.

#### **Window Replacement:**

Windows will only be replaced if the existing windows are damaged and no longer working properly. If a window has a broken pane of glass but still works properly, only the pane of glass can be replaced.

#### **Painting:**

Exterior painting will only be done if the existing paint is cracked and peeling, allowing moisture and weathering to damage the structural framing of the home. Painting can also be done to areas that need painting because of other eligible work that was done through the loan program.

#### **Siding and Skirting Repair and Replacement:**

Siding and skirting will only be eligible if the existing is damaged or needs altering because other program eligible items are being done. If the siding or skirting is damaged, only the areas where the damage was done will be repaired. Repairs will match existing as close as possible but will not be a perfect match because of the availability of the material that was originally used when the mobile home was initially built.

**Landscaping, Groundcoverings, Awnings and Accessory Buildings:**

Only landscaping that is considered hazardous to the building or human safety will be eligible. No concrete, awnings or accessory buildings would be considered unless the existing was damaged or the work was necessary due to accessibility work being done at the home. Examples of accessibility items would be if concrete pad or walkway was necessary for low-rise steps or ramp, a new awning might be needed to cover a new installation of low-rise steps or ramp, or a required accessory building might need to be moved for the installation of new low-rise steps or ramp.

**Air Conditioners and Swamp Coolers:**

The only time that air conditioning units or swamp coolers would be repaired under the Mobile Home Loan Program would be if the applicant had a medical condition that required the home be maintained at a specific temperature. If the unit was simply no longer working, the unit could either be disconnected and left in place or removed.

**Other Items:**

Any item that you may wish to do that does not fall under any of the listed eligible items would only be considered if the item in question was damaged and essential to living in the mobile home.

**Earthquake Bracing and Home Stabilization Repairs:**

Earthquake bracing would only be considered in situations where bracing would be critical to the safety of the home. Releveling the home and installing additional supports where needed would be an eligible item.

**INTERIOR WORK:**

**Appliance Replacement:**

Appliances eligible for replacement may include refrigerators, ovens, cooktops, vent hoods and disposals, Appliances that would not be eligible include microwaves and dishwashers. Appliances will only be replaced with units that work on the same energy source (for instance, gas appliances will only be replaced with other gas appliances and electrical appliances will only be replaced with electrical appliances).

**Flooring Replacement:**

Flooring will only be considered for eligibility when the existing flooring is in such a dilapidated condition that it is considered a hazard. Such conditions could include carpet that is torn and damaged linoleum.

**Plumbing Fixtures:**

Plumbing fixtures such as toilets, tubs, shower units, sinks, faucets and cabinets would only be replaced if they were damaged beyond repair.

**Galvanized Water Pipe Replacement:**

The removal and replacement of galvanized water piping due to damage by rust and corrosion would be an eligible item.

**Electrical, Lighting Fixtures And Wall Receptacles:**

Any damaged light fixture or wall receptacle would be an eligible item. Installing new wiring and fixtures can be eligible if they are needed for medical equipment or for health and safety reasons.

**Furnaces and Water Heaters:**

Furnaces and water heaters that are old and dilapidated would be eligible items.

**Painting:**

Painting will only be considered to touch-up damaged areas due to repairs made to an eligible item. Painting can also be done in areas where the paint finish is peeling or damaged, such as bathrooms and kitchens, where a solid finish is necessary to maintain a moisture resistance surface and washability.

**General Remodeling Or Upgrading:**

This type of work will only be considered for handicap accessibility reasons or physical restrictions.

**Other Items**

Any item that you may wish to do that does not fall under any of the listed eligible items would only be considered if the item in question was damaged and essential to living in the mobilehome.

**Find out if your loan application has been approved before contacting any contractors. Call Katrina Ardina, housing loans specialist, for application information.**

After your loan is approved, the City's Housing Rehabilitation Specialist, will come to your home to do an initial inspection and to review with you the repairs that you wish to make. The Housing Rehabilitation Specialist can help you with obtaining estimates.

The City of Sunnyvale does not endorse any specific contractor for you to hire. The following is a list of general contractors and specialty contractors who have worked with the program in the past. You may call one of the contractors on the list or any qualified

contractor that you desire to give you an estimate on an eligible item, When getting estimates you should not sign any agreements or have any work started until after you have signed the loan agreement with the City and have been given approval from the City to begin work.

### **GENERAL CONTRACTORS**

A-One Mobilehome Services, Dean Reynolds 734-1133  
 California Rehabilitation Equipment, Keith Schwartz 739-5750

# **CALIFORNIA HOUSING REHABILITATION PROGRAM FOR OWNER-OCCUPIED HOUSING**

## **SIGN AND RETURN**

### **Fair Lending Notice**

To: All applicants for a loan under the California Housing Rehabilitation Program for Owner-Occupied Housing.

Under the Housing Financial Discrimination Act of 1977, it is unlawful for a financial institution to refuse to make a loan or to offer less favorable terms than normal (such as a higher interest rate, larger down payment or shorter maturity) based on any of the following:

Neighborhood characteristics (such as the average age of the homes or the income level in the neighborhood) except to the limited extent necessary to avoid unsafe and unsound business practice.

Race, sex, or color, religion, marital status, national origin or ancestry.

It is also unlawful to consider, in appraising a residence, the racial, ethnic or religious composition of a particular neighborhood, or whether or not such composition is undergoing change or is expected to undergo change.

If you wish to file a complaint, or if you have any questions about your rights, contact:

Office of Fair Lending  
600 South Commonwealth  
15<sup>th</sup> Floor  
Los Angeles, CA 90005

U.S. Office of Comptroller of the Currency  
Consumer Complaint Department  
50 Fremont Street, Suite 3900  
San Francisco, CA 94105

When you file a complaint, the law requires that you receive a decision within 30 days.

I/We have received a copy of this notice.

**U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT  
OFFICE OF COMMUNITY PLANNING AND DEVELOPMENT**

**Please Sign and Return**

**WATCH OUT FOR LEAD-BASED PAINT POISONING**

**NOTIFICATION**

TO: OWNERS AND TENANTS OF HOUSING CONSTRUCTED BEFORE 1978

This property was constructed before 1978. There is a possibility it contains lead-based paint.

**\*\*\*PLEASE READ THE FOLLOWING INFORMATION  
CONCERNING LEAD PAINT POISONING\*\*\***

**Source of Lead Based Paint**

The interiors of older homes and apartments often have layers of lead-based paint on the walls, ceilings, window sills and door frames. Lead-based paint and primers may also have been used on outside porches, railings, garages, fire escapes and lamp posts. When the paint chips, flakes or peels off, there may be a real danger for babies and young children. Children may eat paint chips or chew on painted railings, window sills or other items when parents are not around. Children can also ingest lead even if they do not specifically eat paint chips. For example, when children play in an area where there are loose paint chips or dust particles containing lead, they may get these particles on their hands, put their hands into their mouths, and ingest a dangerous amount of lead.

**Hazards of Lead-Based Paint**

Lead poisoning is dangerous – especially to children under the age of seven (7). It can eventually cause mental retardation, blindness and even death.

**Symptoms of Lead-Based Paint Poisoning**

Has your child been especially cranky or irritable? Is he or she eating normally? Does your child have stomachaches and vomiting? Does he or she complain about headaches? Is your child unwilling to play? These may be signs of lead poisoning. Many times though, there are no symptoms at all. Because there are no symptoms does not mean that you should not be concerned if you believe your child has been exposed to lead-based paint.

**Advisability and Availability of blood Lead Level Screening**

If you suspect that your child has eaten chips of paint or someone told you this, you should take your child to the doctor or clinic for testing. If the test shows that your child has an elevated blood lead level, treatment is available. Contact your doctor or local health department for help or more information. Lead screening and treatment are available through the Medicaid Program for those who are eligible. If your child is identified as having an elevated blood lead level, you should immediately notify the Community Development or other agency to which you or your landlord is applying for rehabilitation assistance so the necessary steps can be taken to test your unit for lead-based paint hazards. If your unit does have lead-based paint, you may be eligible for assistance to abate that hazard.

### **Precautions to Take to Prevent Lead-Based Paint Poisoning**

You can avoid lead-based paint poisoning by performing some preventive maintenance. Look at your walls, ceilings, doors, door frames and window sills. Are there places where the paint is peeling, flaking, chipping, or powdering? If so, there are some things you can do immediately to protect your child:

- Cover all furniture and appliances;
- Get a broom or stiff brush and remove all loose pieces of paint from walls, woodwork, window wells and ceilings;
- Sweep up all pieces of paint and plaster and put them in a paper bag or wrap them in newspaper. Put these packages in the trash can. **DO NOT BURN THEM;**
- Do not leave paint chips on the floor in window wells. Damp mop floors and window sills in and around the work area to remove all dust and paint particles. Keeping these areas clear of paint chips, dust and dirt is easy and very important; and
- Do not allow loose paint to remain within your children's reach since children may pick loose paint off the lower part of the walls.

### **Homeowner Maintenance and Treatment of Lead-Based Paint Hazards**

As a homeowner, you should take the necessary steps to keep your home in good shape. Water leaks from faulty plumbing, defective roofs and exterior holes or breaks may admit rain and dampness into the interior of your home. These conditions damage walls and ceilings and cause paint to peel, crack or flake. These conditions should be corrected immediately.

Before repainting, all surfaces that are peeling, cracking, chipping or loose should be thoroughly cleaned by scraping or brushing the loose paint from the surface, then repaint with two (2) coats of non-lead-based paint. Instead of scraping and repainting, the surface may be covered with other material such as wallboard, gypsum, or paneling. Beware that when lead-based paint is removed by scraping or sanding, a dust is

created, which may be hazardous. The dust can enter the body either by breathing it or swallowing it. The use of heat or paint removers could create a vapor or fume which may cause poisoning if inhaled over a long period of time. Whenever possible, the removal of lead-based paint should take place when there are no children or pregnant women on the premises. Simply painting over defective lead-based paint surfaces does not eliminate the hazard. Remember that you as an adult play a major role in the prevention of lead poisoning. Your actions and awareness about the lead problem can make a big difference.

### **Tenant and Homebuyer Responsibilities**

You should immediately notify the management office or the agency through which you are purchasing your home if the unit has flaking, chipping, powdering or peeling paint, water leaks from plumbing, or a defective roof. You should co-operate with that office's effort to repair the unit.

I have received a copy of the Notice entitled "Watch Out for Lead-Based Paint Poisoning."
